ITALIAN MARKET FOCUS

Compliant platform, active support and training

The platform is certified with SIAE and Revenue Agency and is officially compliant with the Italian legislation (Ministerial Decree 13th July 2000) for the sale of tickets for show and entertainment events.

Together with the legislative expertise in the events business, we can collaborate also with international companies in the Italian market.

IT security

- SSL security certificate EV 128 bit
- Distributed cache
- Waiting list
- Queuing activation
- 3D secure option

Anti secondary ticketing functionality

- Re-captcha
- SMS PIN confirmation
- Nominal purchases
- Purchase limit per order
- Purchase limit per person
- Purchase limit per event
- Purchase limit per day
- Tracking log

Different options of international payment platforms

The platform is already integrated with many payment systems and we are able to implement other circuits on request.

- Stripe
- Paypal
- Amazon Pay
- Google Pay
- Nexi, Visa
- Mastercard
- American Express
- XPay
- Satispay
- Poste Pay (Italy)
- Bank Transfer

Reports and administration

Clear, detailed and customized reports to check the sales trend and the final accounting report.

The platform allows the integration of accounting systems or the provision of custom flows and patterns.

IT support

- Scalable platform
- Sizing and configuration of server architecture
- Load balancing
- Customizable development

Contact us and turn a ticket into a unique experience.

Discover the new ticketing era, give your event an original and unforgettable charm, offer exciting experiences to your spectator.

Tell us your idea, we will be happy to listen to you and give you all the maximum support.
